

**Tile Ventilator Range - Double Pantile**

CODE **GTV-DP**

**Description**

The Manthorpe Double Pantile in-line tile ventilator is designed to provide a quick and simple solution to the problems of roofspace ventilation and mechanical extraction / soil stack termination through a Double Pantile tiled roof.

The profile vent is designed to replace a single tile and maintain an unbroken appearance to the roofline whether used at high or low level.

The tortured path through the 4mm louvred grill and internal weathering geometry is designed to maintain a 10k mm<sup>2</sup> of airflow whilst channelling any water ingress out of the vent and on to the roof covering.

<b>Weight</b>	1.1kg
<b>Box Qty</b>	4 (4.6kg per box)
<b>Materials - Top Base</b>	PVC Polypropylene
<b>Colours</b>	Terracotta, Grey, Brown & Antique Red
<b>Manufacturing</b>	Injection Moulded
<b>Free Airflow</b>	10K mm <sup>2</sup> per unit

**Features**

- In-line and discreet low profile design.
- 4mm louvred flyscreen grill.
- Integral sidelock clip to ensure secure fit.
- Range of profiles and colours available.
- Profiles suit all top tile manufacturers.
- Fully independently wind tunnel tested.
- Base outlet feeds directly into roof space.
- Adaptor available for mechanical extraction.
- Suitable for use down to a 20° roof pitch.

**Double Pantile**

For use with:  
Marley Mendip\*  
Redland Grovebury\*  
Sandtoft Double Pantile  
Russell Pennine

\* Profile requires vent modification.
