

Eaves Protection Board

Code: **GEPB**

Product Code	GEPB Eaves Protection Board
Packing Details	1000 units on a pallet
Weight	450g per unit
Colour	Black
Material	Recycled Polypropylene
Manufacturing Process	Injection Moulded

Description

The patent applied for Eaves Protection Board product, is designed to bridge the rafters and provide support for the roofing underlay. It eliminates the problem of rotting felt caused by the sagging and retaining of water at eaves level. For both new build and refurbishment details, suitable for all rafter centres.

Use the Eaves Protection Board in conjunction with other products from the Manthorpe range to provide a complete roof ventilation system.
